

SCREENING QUESTIONS TO BE ASKED PRIOR TO EVERY VISIT:

SCREENING QUESTIONS TO BE ASKED PRIOR TO EVERY VISIT:

Let your Resource Coordinator or Case Manager know of any clients where they answer YES. Put on Droplet/Contact PPE and give the client a business card with Health Links contact information.

If a client/household member refuses to participate in answering these questions, you are permitted to leave the home and notify your RC/Case Manager or After Hours immediately.

Pick up your PPE kits (both types) from your community office. Droplet/contact PPE: gown, gloves, procedure mask, eye protection, trash bag, bag for coat. Home Visit PPE: procedure mask, eye protection, Ziploc bag, sterilizing wipes, paper bags. If your office asks you to return eye protection, please continue to do so.

PPE is available after hours at 496 Hargrave until 10pm every day including weekends. Call 204-940-3100 – someone will meet you at the front door.

Hand Hygiene is one of the most important things you can do to keep yourself and your clients safe.

- 1: Before** initial client or client environment contact
- 2: Before** aseptic or clean procedures
- 3: After** body fluid exposure
- 4: After** contact with client or client environment

Ensure Routine Practices are followed at all times!

Let your Resource Coordinator or Case Manager know of any clients where they answer YES (if not already reported). Put on Droplet/Contact PPE and give the client a business card with Health Links contact information.

If a client/household member refuses to participate in answering these questions, you are permitted to leave the home and notify your RC/Case Manager or After Hours immediately.
